HAOBOWEI
HOTEL FURNITURE

Customizable Materials

Imitation leather

Polyurethane Synthetic Leather

It is an artificial synthetic material, which has the appearance and texture similar to that of natural leather, but the cost is relatively low.

Ecological leather

It can simulate the appearance and touch similar to that of natural leather and has certain performances such as abrasion resistance and scratch resistance.

Science and technology fabric

Technical fabric features similar appearance and texture to natural leather, good breathability, abrasion resistance, easy cleaning, high cost-effectiveness and rich colors.
